NOW WHAT DO I DO?

Have you ever been in a situation where you weren’t quite sure what to do? Now that the family is back together again, now that reunion has happened, now that we are “back in the saddle”, a whole bunch of new issues has surfaced. This new series of newsletters is a follow-on to the REUNION TIMES published in 2004.

POST TIMES is a series of eight newsletters designed to address issues, problems, and concerns facing soldier families that have returned from deployment. Unlike REUNION TIMES, this series will focus on issues that may be common in post-redeployment. In other words, once reunion has happened and things seem “back to normal”, soldier families still have work to do to keep their families strong.

Post Times will examine the values of LEGACY, DETERMINATION, RESILIENCE, STABILITY, HEALTHY LIFESTYLE, IDEALS, and PASSION.

TOOLS FOR THE JOB

Have you ever tried to do a job without the right tools and equipment? You can have all the instructions, all the best materials, the knowledge, the motivation, and the skills. Yet, lacking the tools necessary to complete the job can be frustrating...or even disastrous.

Our family and personal relationships are built over time. With the right tools, knowledge, and skill these relationships can develop and grow in a way that is healthy, rewarding, and productive. One need only read the daily news headlines to know that many in our society are clueless when it comes to managing their personal and social lives.

Military deployments can cause strain on even the best relationships. As families renew their routines, it’s a good idea to knock the rust off the tools and put them back to work.
